**method**

Choosing the best alternative solution by a decision making technique AHP (Analytic Hierarchy Process) (Analytical Hierarchy Process)

"I want to make a decision. Among several alternative solutions I want to choose the right one according to my own criteria. The one that is ideal for me, suitable for me and based on my own preferences. I want a simple selection process. I want to use a decision making method used by successful companies and institutions. I want a simple result image. I
